

# DIN8

## Adapters & Sockets

8 Pin Octal

### I/O Compatibility

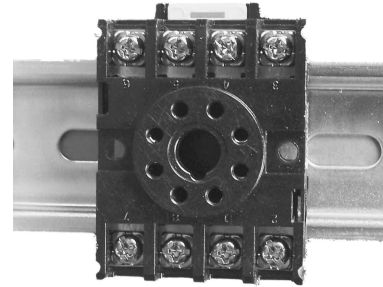

Standard 8 Pin Octal

## Overview

DIN Rail mounted sockets offer convenient mounting and wiring of I/O modules.

The **DIN8** socket accepts all 8 pin octal type control modules and relays. It provides mounting options for either 'panel mount' or 'DIN-Rail' mounting.

Full-size barrier screw-clamp terminals are provided for all field connections of 14 to 22 AWG wire sizes.
